Plastic Surgery | Instruments & Set

SANTOZ SURGICAL | **CATALOGUE**

SANTOZ SURGICAL is known for its quality. For Surgical instruments and Instruments for surgery and is an operated business that has been dedicated to providing healthcare professionals with the products they need to perform their art since a long. Our high quality, precision crafted instruments have been an essential product line to our worthy customers.

We carry an exclusive range of Surgical Instruments, Surgical Instruments and Healthcare Equipments.

We are committed to providing a product line that guarantees quality and extraordinary value to the end user as well as a level of service, satisfaction, and cooperation that has become a hallmark of Santoz Surgical.

We have gained a reputation for offering unbeatable prices on branded items as well as outstanding customer service on all levels. Every single instrument is manufactured with great care. We are working hard for maintaining higher standard. Advanced techniques are used in manufacturing and finishing departments in order to make best products.

SANTOZ SURGICAL is offering you huge selection of our products and much more for a fast growing number of customers. We make it easy for you to browse our products, place orders and benefit from our quality services.

We assure you quality instruments, most competitive prices and shortest delivery time.

Your Sincerely

Raheel Ahmed
(C.E.O)

All Instruments are available in a high-polish or satin/matte finish according to individual preferences. Constructed from high-quality 300, 410, or 420 Series Stainless Steel, these devices meet or exceed all ASTM/AISI International Standards for Medical Device production. Undergoing the latest finishing techniques to prevent rusting and future corrosion, our state-of-the-art method includes, but is not limited to: surface grinding, broaching, heat treating, drilling, tapping, electronically passivating and I.D./O.D. Threading.

Cartilage Cutting Block

For the preparation of fine sliced cartilage.

Rib cartilage can be cut with a dermatome blade or scalpel with a choice of defined layered thicknesses such as 0.5 / 1.0 / 1.5 / 2.0 mm.

The cartilage transplants can be used for a wide range of purposes in Rhinoplasty.
